5. 2025 Outlook & Guidance

For FY2025, the Company provides the following guidance:

- Total revenue is expected to be in the range of CNY 9.8 - 10.2 billion (15% - 20% YoY growth).
- Cloud services revenue is projected to exceed CNY 4.5 billion.
- Gross margin is expected to remain above 60%.
- R&D investment will increase to approximately 22% of revenue, focused on AI/ML platform capabilities.
- Capital expenditure of CNY 1.2 - 1.5 billion planned for data center expansion.

Key risks include: macroeconomic uncertainty in domestic markets, intensifying competition in the enterprise SaaS space, and regulatory changes in data governance. Management remains confident in achieving sustained double-digit revenue growth through continued product innovation and market expansion.
